

Announcement of the end of auction and allocation of radio frequencies to winners

CTU announces that on 29 August 2017 the allocation of radio frequencies has been carried out to auction winners in the scope and structure corresponding to their gains of Auction blocks in the Auction Phase of the tender to grant rights of use of radio frequencies for the provision of electronic communications networks in 3600 – 3800 MHz band. By the allocation of frequencies, the auction phase of the tender has been completed.

Due to the fact, that within the deadline in accordance with Chapter 5, paragraph 1 of the auction rules, CTU did not receive any agreement between winners on the distribution of the gained abstract Auction Blocks, the abstract Auction Blocks were assigned to each of the specific sections of radio frequencies according to the Chapter 5, paragraph 3, of the Auction Rules (note: by lot).

In accordance with Chapter 7 of the Auction Rules, CTU announces following information:

1. Identification of winning Applicants:

- Nordic Telecom 5G a.s.
- O2 Czech Republic a.s.
- PODA a.s.
- Vodafone Czech Republic a.s.
